#### Acute Rheumatism.

Deep tearing or wrenching pain, oc-  
casioned by getting wet through; worse  
when at rest, or on first moving the  
limbs and in cold or damp weather, is  
cured quickly by Ballard's Snow Linim-  
ent. "Cass, Nelson, Gibson City, Ill-  
ois, writes Feb. 16, 1902: "A year ago  
was troubled with a pain in my back,  
soon got so bad I could not bend  
over. One bottle of Ballard's Snow

ness done in 1903 by the eighty-seven  
life insurance companies in the United

#### That Tired Feeling!

If you are tired, depressed and in-  
capable of doing your best, your  
Editor Isaac, of the  
Press, who indicates  
is out of order. Herbine will  
to throw off headaches, rheu-  
matism, and ailments akin to nervous-  
ness, restore the energies and vital-  
ity, and perfect health. J. J.  
Shard, Temple, Texas, writes March  
22, 1902: "I have used Herbine for the  
past two years. It has done me more  
good than all the doctors." When I feel  
bad and have that tired feeling, I take a  
dose of Herbine. It's the best medicine  
ever made for chills and fever." 50  
cents a bottle at B. M. Wade & Co's.

The farmer who has a good garden  
has a healthy family as a rule. At a far-  
mer's institute a few years ago an aged  
physician was asked to make a few re-  
marks. The first thing he said was: "I  
noticed all my life that I never got much  
money out of the family which was fed  
on plenty of fruits and vegetables."

THE CHRISTIAN churches at Constan-  
tinople, Turkey, and Yokohama, Japan,  
have long used the Longman & Mar-  
tinez Paints for painting their churches.  
Liberal contributions of L. & M. Paint  
will be given for such purpose wherever  
a church is located.

F. M. Scofield, Harris Springs, S. C.,  
writes: "I painted our old homestead  
with L. & M. twenty-six years ago. Not  
painted since: looks better than houses  
painted in the last four years."

W. B. Barr, Charleston, W. Va.,  
writes: "Painted Frankenburg block  
with L. & M.; shows better than any  
buildings here have ever done; stands  
out as though varnished, and actual cost  
of paint was less than \$1.20 per gallon.  
Weighs and covers like gold.  
These celebrated paints are sold by

#### PROTECT THE BIRDS.

Many people think that this ad-  
vice so often given is based on mere  
sentiment and amounts to nothing  
beyond that, but as a matter of fact  
it is not for these feathered  
creatures men could not live on the  
earth. Nature, under normal condi-  
tions, provides a balance in all di-  
rections, and it is only when man  
disturbs these conditions that things  
go wrong. When the thoughtless  
boy or man shoots the bird ordinar-  
ily known as the "bull bat," he is  
killing a friend of his that, as an in-  
sect destroyer is away and ahead of  
any powder or poison ever invented.  
When a martin is killed there is rich  
rejoicing in the household of the  
flies, and so when a "bee-bird" is  
killed. Extensive experiments have  
proven that the quail is the worst  
enemy yet found of the boll weevil  
that is playing such havoc with the  
Texas cotton fields and the presence  
of which was reported last year in  
South Alabama and the northern  
part of our own county. There is  
reason enough in sentiment for the  
protection of the birds, but far more  
in cold business.—DeFuniak Breeze.

#### INSECT DESTROYERS.

Our agricultural department fig-  
ures that twelve little bugs inflicted  
a total annual loss of \$368,000,000 on  
our farmers, and the biggest of these  
is the cinch. Now the birds are the  
most effective enemies of these de-  
stroyers. Why not leave the birds  
to settle these bills? In Florida the  
practical extermination of the in-  
sectivorous birds will prove more  
disastrous than in the country at  
large, comparatively, because our  
climate is more favorable to a pro-  
ponderance of insect life. Our farm-  
ers would do well to accept these  
warnings before it proves too late.

#### SUCCESSFUL TRUCKING.

Bartow Courier-Informant:—The  
possibilities of profitable agriculture  
in Polk county are well illustrated  
by Mr. James who came here two  
years ago and purchased land near  
this city.

During the past season Mr. James  
had two acres in strawberries from  
which he netted \$500. He planted the  
Excelior berry which he finds is  
well adapted for this section.

Eight acres in cabbage gave him a  
net result of \$2,300. His bean and cu-  
cumber crops did well and showed a  
substantial profit.

Mr. James also planted eight acres  
of tomatoes, from which he gathered  
1,000 crates which sold at good  
prices.

The success which has attended  
the effort of Mr. James caused him  
to buy eight acres more recently and  
he will strive for even greater results  
next season.

Miami News:—S. C. Littlefield, of  
Little River, planted one acre in  
celery last season and sold 952 crates,  
netting \$140 per acre. He had  
averaged 100 crates an acre in strawberries  
one-fourth of an acre gathered quantities  
from which he gathered good price  
of fine berries, bringing a good price.  
He also did well with onions, Irish  
potatoes, beans and eggplant, but  
made more money in celery, straw-  
berries, peppers and parsley than  
any of his other crops. He expects  
to plant four acres in celery and one  
acre in strawberries next season.

The town that waits for something  
to turn up is in much the same con-  
dition as the individual who pursues  
that course; neither will amount to  
very much. A cow may come into  
the lot and place herself into the po-  
sition to be milked, but the man  
who goes after her will be more sure  
to have butter for his bread.—De-  
Funiak Breeze.

An able Kansas lawyer who was  
arrested in that prohibition com-  
monwealth for being drunk, made a  
successful defense in court, arguing  
that, as he had acquired his jag in  
Missouri, to try him in Kansas must  
necessarily be a violation of the in-  
ter-state commerce law.

Coast Line of the Philippines.  
A geographical magazine makes the  
interesting statement that the Philip-  
pine Islands have a coast line double  
that of the main part of the United  
States. The measurement given is 11,  
444 statute miles, while the total area  
is stated as 115,020 square miles. In  
the Philippines there is one mile of  
coast line to every ten miles of area; in  
the United States the proportion is 1  
to 555. It is said that 3,000 islands and  
islets can be counted on the charts.—

**FEMALE WEAKNESS**  
642 1-2 Congress St., Portland, Maine, Oct. 17, 1902.  
I consider Wine of Cardui superior to any doctor's medicine I ever used and I know whereof I speak. I suffered for nine months with suppressed menstruation which completely prostrated me. Pains would shoot through my back and sides and I would have blinding headaches. My limbs would swell up and I would feel so weak I could not stand up. I naturally felt discouraged for I seemed to be beyond the help of physicians, but Wine of Cardui came as a God-send to me. I felt a change for the better within a week. After nineteen days treatment I menstruated without suffering the agonies I usually did and soon became regular and without pain. Wine of Cardui is simply wonderful and I wish that all suffering women knew of its good qualities.
